Sliding Patio Door

Enhanced comfort and security

Designed and made in Britain, our sliding patio door system is highly engineered, thermally efficient and secure. Invite natural light in and open your home to the outdoors whilst maximising room space.

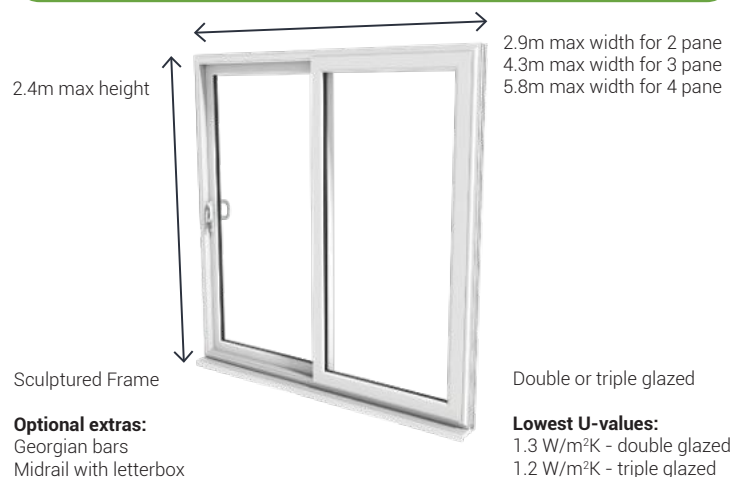

A part of the **Platinum NRG** range of British made Products

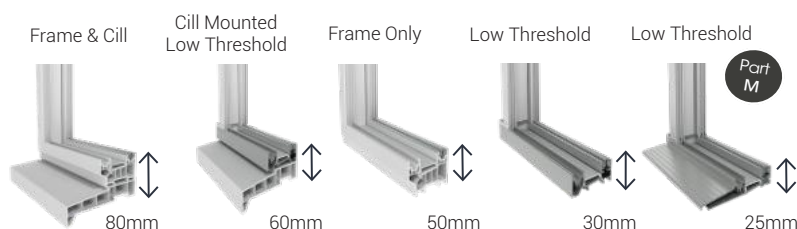

Sliding Patio Door

With a multi-chambered design that minimises the transfer of cold and heat, our PlatinumNRG patio door delivers supreme thermal performance which contributes to an energy efficient home and an ideal year-round ambient temperature.

Technical Information
